SDG 4 - Clause 4.3.2 Public Events – Life Long Learning

Open to General Public – Public Lectures, Community Educational Events

DMIMS(DU) believes in Lifelong Learning as a concept and for the fulfilment of this, various initiatives have been undertaken to educate general public through continuous method beyond the class room and in this regard, different modes of learning are practiced - Brick-and-Mortar Model / Flipped / Blended / online / web series which includes Regional / National / Global Seminars / Conferences. Post the pandemic period, many such events are being conducted online due to need of the hour. These conferences are attended by a targeted audience that includes professionals of various areas of specialization and in turn they deliver their expertise through their services to the Community at large.

For this purpose, a dedicated centre is functioning in DMIMS(DU) under a veteran academician. Furthermore, Community Medical Awareness sessions about the wellbeing of the senior citizens are conducted in the areas of where age-related ailments are prevalent and remedial measures are promoted among the less privileged local tribal community.

Specific community based educational events are held among the tribals in the state of Maharashtra, especially in and around Nagpur, serving elderly, viz. beyond the age of 60 years, on old age sickness, vision issues, etc., and the attendees are also offered with preventive measures and interventional methods, as required.

CELEBRATION OF WORLD EYE DONATION DAY

BY

DEPARTMENT OF OPHTHALMOLOGY, AVBRH,
SAWANGI, WARDHA

On the occasion of World Eye Donation Day on 10th June , 2021, the Department of Ophthalmology of Acharya Vinoba Bhave rural Hospital, Sawangi organized a people awareness campaign and encouraged people to donate their eyes after death.

‘Be the reason for someone to see the sunshine’ was our mantra and maximum people pledge to donate the gift of sight was our motto.

Our respected HOD, Dr Praveena Kher ma’am, discussed about the prerequisites of establishment of eyebank and facilities available at our eye bank.

Dr Sachin Daigavane sir, our Professor, took to stage and enlightened us about the risks and benefits of corneal transplantation. Dr Sohan Lohiya sir, our Associate Professor made us aware of the procedure, eligibility and registration formalities for eye donation in India.

The residents and consultants actively participated in raising awareness about this cause. The outpatient department saw 15 patients who were all counselled, and hospital based awareness was conducted. Beneficiaries were about a 100.

“A peak into our awareness campaign initiative on World eye donation day”
