## **SDG 5 - Clause 5.3.1 Tracking Access Measures**

### **Admission Process Policy**

#### **Systematically tracking women application, acceptance, entry and completion rate in the University.**

At DMIMS a robust admission process is in place that starts right from identifying the prospective students, especially women, which can be seen from the high rate of admission of women students in the University.

Apart from this, a special tracking system is in place for the follow-up of the prospective women candidates which is apparent from the large percentages of women applicants and admissions in almost all programs, which is made possible by the personal connection established by call centres and counsellors dedicated for admissions.

A centralised dedicated admissions committee is constituted focusing on the importance of establishing hassle-free access for female students, especially for those from the underprivileged and rural areas. The central admissions committee comprises of officials represented by maximum number of women in leadership positions. In order to interest more girl candidates for seeking admission and enrolling into higher educational streams, admissions committee officials visit various co-ed and Girls' schools and counsel the potential students about the opportunities available.

The admissions committee monitors the tracking of applications as narrated above for girl students with adequate special efforts as depicted in the flow-chart.

## Admissions Committee

comprising of High Officials (Consisting of a high representation of women in leadership position.)

The Admissions Team visits various co-ed and Girls' schools for counselling the potential students.
